

Background Coursework Form
Please return by July 15, 2019

Name: _____ UTEID: _____

Admitted Semester/Year: _____ Program (PhD or Master's): _____

Students who have previously completed a degree (undergraduate major or Master's) in Computer Science do not need to fill out this form.

The UTCS undergraduate courses listed below, or equivalent, are required as background for our graduate degrees. If you believe you have met the requirement for any of these courses with an equivalent course, follow the instructions below:

1. Please write the name and number of the course and semester taken, as stated on your transcript, next to the CS course for which you wish to indicate you have completed the requirement.
2. Attach the course descriptions (with name of textbook) or syllabi, and a copy of your transcript(s) with the course(s) and corresponding grade circled/highlighted.

We realize course names/numbers change. The best approach is to submit course descriptions and syllabi for the courses as they were when you took them and with the number and name of the courses on the submitted materials matching the transcript.

Discrete Math for Computer Science (CS 311) _____

Introduction to Programming (CS 312) _____

Data Structures (CS 314) _____

Algorithms and Complexity (CS 331) _____

Computer Organization and Architecture (CS 429) _____

Principles of Computer Systems (CS 439) _____
